21. "Exclusion" means the process of preventing bats from roosting in a structure by:
 - a. Placing one-way devices at all entry points where bats are known to enter the structure,
 - b. Allowing all bats to exit the structure for a minimum of 5 days,
 - c. Removing all one-way devices once all bats have left the structure, and
 - d. Sealing all entry points.

R9-8-710. Pest Control

A responsible person shall ensure that:

1. ~~Indoor classroom~~ Classroom and non-classroom areas are kept free of insects and rodents except when the insects or rodents are being kept as specified in R9-8-709 or are food for animals being kept as specified in R9-8-709.
2. School premises are kept free of roosting bats:
 - a. If bats are roosting in the interior of a structure on school premises, after consultation by the school with the regional office of the Arizona Game and Fish

Department, exclusion of the bats is performed by an Arizona Game and Fish Department Wildlife Service licensee as provided in R12-4-421; and

- b. If bats are roosting on the exterior of a structure on school premises, the school shall consult with the regional office of the Arizona Game and Fish Department in order to receive direction on techniques the school can use to discourage this type of roosting.
